MEET & GREET

A social gathering that brings together students, faculty, alumni and professionals from top companies in mechanical and aerospace engineering.

Busch Student Center
November 8, 2018
INFORMATION BOOKLET
Christopher J. Molloy, PhD, RPh  
Interim Chancellor  
Rutgers University – New Brunswick

In July 2018, Christopher J. Molloy was appointed the interim Chancellor for the Rutgers flagship campus reporting to University President Robert L. Barchi. Molloy joined Rutgers in 2007 as dean of the Ernest Mario School of Pharmacy. In 2011, he was appointed interim provost for biomedical and health sciences and successfully managed the complex integration of Rutgers and most of the former University of Medicine and Dentistry of New Jersey (UMDNJ) in 2013. Molloy served as interim chancellor of Rutgers Biomedical and Health Sciences and then Senior Vice President for the Office of Research and Economic Development until his appointment as interim Chancellor.

Molloy received his bachelor’s degree in pharmacy from Rutgers and his doctoral degree from the joint Rutgers Graduate School of Biomedical Sciences at Robert Wood Johnson Medical School/Graduate School–New Brunswick. He was a post-doctoral fellow at the National Cancer Institute.

Prior to joining Rutgers, Molloy held senior research and management positions at Johnson & Johnson, 3-Dimensional Pharmaceuticals Inc., and Bristol-Myers Squibb Pharmaceutical Research Institute. He is also a licensed pharmacist in New Jersey. At Rutgers, he holds a faculty position as Distinguished Professor of Pharmacology and Toxicology and is a member of the Rutgers Cancer Institute of New Jersey, the American Association for Cancer Research, and the American Society for Biochemistry and Molecular Biology, and the American Pharmacists Association. He was elected as a Fellow of the American Association for the Advancement of Science in 2016.
**Agenda (Busch Campus Center)**

**Industry Reception**  
*Faculty Dining Hall*  
6:00 - 7:20 pm  Dinner and Discussion

**Welcoming Remarks**  
Christopher J. Molloy, PhD, RPh  
New Brunswick Chancellor  
Rutgers University

**Meet and Greet with Students**  
*Faculty Dining Hall*  
7:30 - 9:00 pm  Networking with Students
**Kip Anthony**  
*President*

Kip Anthony is President of EFE Laboratories, an established, solutions-based contract manufacturer located in Horsham, PA. Kip’s professional experience spans a wide range of industries, including heavy manufacturing/aerospace, food processing equipment, automotive, and aerospace. Among these, he has spent time with Schrader Bridgeport International, BE Aerospace, Cooper Industries, O.S. Kelly Co. (now a subsidiary of Steinway Musical Instruments), and others. In addition to a B.S. in mechanical engineering, Kip holds an MBA (with a concentration in finance) from Ohio State and Ashland universities. With more than a decade of service to EFE—and in his current role as President—Kip is the ultimate facilitator of both customer satisfaction and strategic direction for the company.

**Jeffrey Appel**  
*Navigation and Communications Director and Program Director, NTCDL*

For BAE Systems in Wayne, NJ, Jeff is the Navigation and Communications Director and Program Director for the Network Tactical Common Data Link (NTCDL) program. He manages a group of Program Managers that lead projects for our Doppler Navigation, MultiMode Receiver Precision Landing Receiver, Low Probability of Intercept Altimeter and Common Data Link products. He graduated from Hofstra University with a Master's in Business Administration and Virginia Tech with a Bachelor's in Electrical Engineering.

Eric Armour

Senior Director of Advanced Process Technology

Eric Armour received his B.S. from University of Pennsylvania in 1987, his M.S. from University of Delaware in 1989, and Ph.D. from University of New Mexico in 1994, all in electrical engineering. He joined Emcore Corporation in 1994, where he collaborated with scientists from Spectrolab and the National Renewable Energy Lab (NREL) to develop the first commercial (large-area production) tandem and triple junction As/P extraterrestrial solar cells grown on Ge using metal-organic vapor phase epitaxy (MOVPE). Dr. Armour then became the Director of Research for the newly established Emcore Electronic Materials (now IQE-RF). Eric was appointed the Director of Materials and Process Development in 2002. He is currently the Senior Director of Advanced Process Technology, where focuses on next-generation GaN reactor platforms. Dr. Armour has contributed to over 100-refereed publications and has 8 US patents.

BAE Systems

Rick Buongiovanni

New Jersey Engineering Site Director and C4ISR Chief of Staff

Rick is the NJ Engineering Director leading all engineering effort in New Jersey. He is responsible for the overall performance of all programs managed out of NJ, the hiring of all Engineering Managers / Leaders and managing the engineering workforce. He is also the Engineering Chief of Staff for the C4ISR business area. The C4ISR organization has facilities all over the United States and employees over 1400 engineers. Rick has been leading communications systems product development throughout his 30 year career at BAE Systems. He holds an MS degree from Stevens Institute and a BS from Rutgers University in Electrical Engineering.

Dovas Law, P.C.

Dimitri Dovas
Attorney

Dovas Law was founded in 2006 as a Professional Corporation with a focus on intellectual property matters. We work to meet the needs of domestic and foreign clients, including corporations, law firms and individuals, who seek to protect ideas and innovation in varying fields and technologies. A large portion of our practice involves counseling clients regarding domestic and international intellectual property rights, matters of infringement, and due diligence in M&A transactions, as well as negotiating and drafting IP-related contracts, service agreements, licenses, and settlement agreements. We provide full service in trademark and copyright matters including prosecution of new applications and defending client rights. Dimitri Dovas received his Juris Doctor from Rutgers Camden School of Law and his Bachelor of Science, with honors, from Rutgers College of Engineering.

Eric Evdokimoff is a Risk Engineering Regional Manager who leads the East Team 4 group supporting the Mid-Atlantic territory. He directs the activities for field engineers in his region and is responsible for work assignments, quality compliance, team building and personnel issues. Eric is also a risk engineering liaison between property engineering and the Philadelphia office underwriting team. He coordinates activities such as the pre-account renewal strategy meetings, prospect account reviews and general questions.

Mark Frombach is a partner and Chief Investment Officer at Roffman Miller, a Philadelphia-based wealth management firm. Following graduation (Rutgers BSEE, 1988) Mark spent 11 years in factory automation and process controls. The accumulated experience of working at various customer sites throughout the US and globally led him to pursue his next degree (Rutgers MBA, Finance, 1996) and career. Today, Mark is leads the investment committee for Roffman Miller and is responsible for over $1 billion of client assets.

Jeff Kinsberg
Chief Executive Officer

Jeff is the Chief Executive Officer of JAKTOOL, a high-end engineering, manufacturing and prototyping company headquartered in Cranbury, NJ. Mr. Kinsberg conceived and founded JAKTOOL in 1994, which has achieved a history of successful, sustainable growth through continuous improvement and client focus and a multi-disciplinary team known for problem solving, engineering, and prototype development with unmatched quality and customer satisfaction. Previously, Jeff led the development of material handling systems for structures in the nuclear, oil, and gas industries. While at Rutgers, Jeff was employed as a student designer and machinist for the Industrial Engineering Department. Jeff participated in the Society of Automotive Engineers (SAE/RFR). Jeff continues to mentor these students as well as provide internship opportunities though his business. He holds a B.S. in Mechanical Engineering from Rutgers University.

Paul Shang
Signatures Department, Head

Paul Shang’s 30-year career in the service of the U.S. Navy is distinguished by his technical achievements as a scientist, engineer, and manager. His career-long achievements as a technologist and manager are best demonstrated by the superior stealth performance of today’s U.S. naval fleet. Currently, he is the Head of the Ship Signatures Department, Naval Surface Warfare Center Carderock Division.

Paul Shang received his bachelor’s degree and Ph.D. from Rutgers University, both in mechanical engineering. He is a Fellow of the American Society of Mechanical Engineers and a recipient of the Bronze Medal from the National Defense Industrial Association.

Cristy Richards
Vice President

Cristy Richards is the President and COO of JAKTOOL, leading the quality and procurement departments. In the four years that Cristy has been with JAKTOOL, she has matured the quality system to earn ISO 9001 certification and has implemented ERP to streamline workflow and improve efficiency. Before joining JAKTOOL, Cristy worked for both academic and large corporations supporting biologics and medical devices. Team oriented and with the desire to mentor, Cristy has led multidisciplinary teams as the Product Development Engineering Manager for Osteotech, Inc. and as Principal Sourcing Engineer for Medtronic Spine and Biologics, where she was responsible for acquisitions of $1M+. Cristy holds a B.S. and M.S. in Mechanical Engineering, both from Rutgers and M.B.A from Monmouth University. She is credited with numerous publications and patents in the medical device industry.
Brittany Geyer Smith

Brittany Geyer Smith is a mechanical engineer at BAE Systems, Inc. In her current role she supports the electronic warfare products. As a mechanical engineer she designs housings and works closely with other disciplines to meet customer requirements. Brittany holds a Bachelors of Engineering in Mechanical Engineering from Stevens Institute of Technology (2015). She is also currently pursuing a Masters of Engineering in Engineering Management from Stevens as well.

Xiaoli Bai
Assistant Professor

Xiaoli Bai has been an Assistant Professor in the department of Mechanical and Aerospace Engineering at Rutgers since July 2014. She obtained her PhD degree of Aerospace Engineering in 2010 from Texas A&M University. Prior to joining Rutgers, she was a research scientist at Optimal Synthesis Inc. in Los Altos, California, working with NASA Langley and NASA Ames on advanced research and development projects in the area of air traffic management systems. One consequence of her dissertation is a set of methods which significantly enhances and accelerates the fundamental processes underlying the creation and maintenance of space debris catalogs. Her research theme is Advanced Computational Methods for Dynamics and Control of Aerospace Systems.

*Distinguished Professor of Mechanical and Aerospace Engineering*

Doyle Knight received his PhD in Aeronautics from the California Institute of Technology in 1974. Following two years service in the United States Air Force as an Aeronautical Engineer, and one year Postdoctoral Fellowship in Applied Mathematics at the California Institute of Technology, he joined Rutgers MAE. His research in gas dynamics includes shock wave boundary layer interaction, incipient separation on pitching airfoils, turbulence model development, high speed inlet unstart and effects of unsteady energy deposition in supersonic flows. His research activity in design optimization focuses on the application of computational fluid dynamics to the automated optimal design of high speed air vehicles. He is the author of the book Elements of Numerical Methods for Compressible Flows published by Cambridge University Press. He is the author/co-author of 7 book chapters.

Dr. Assimina Pelegri is a Professor and the Undergraduate Program Director of Mechanical and Aerospace Engineering at Rutgers, The State University of New Jersey. Her research interests include composite materials design, properties characterization, novel methodologies in materials modeling, and application of anisotropic material principles in interfacial mechanics. She has developed multi-scale material models for characterization of aerospace fibrous composites as well as models for interfacial damage evolution in such materials. Her models have also found applications in biological fibrous materials such as brain neurons and have launched research activities in the fields of traumatic brain injury and degenerative diseases.

Assimina Pelegri
Professor, Undergraduate Program Director

Dr. Singer’s lab (hmnl.rutgers.edu) focuses on applying scalable micro/nanomanufacturing processes to incorporate the extraordinary properties of nanostructures into complex geometries. This is accomplished through combinations of “bottom-up” and “top-down” lithographic techniques. The critical feature of these processes is that they shift the burden of micro/nanoscale resolution from a costly or slow technique to a more scalable method bottom-up method. In this way, barriers to integration with rapid production methods, such as roll-to-roll or spray coating are removed, while retaining a sufficient degree of control for targeted applications in, for example, propulsion, sensors, and medical implants. His research was most recently recognized through a 2018 3M Non-Tenured Faculty Award.
