

Spring 2018 Colloquium Series Schedule

Wednesdays, 3:30 – 4:30 p.m. (refreshments/social hour at 4:30)
Easton Hub Auditorium (in the Fiber Optics Building)

- | | |
|-------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| January 24 | Title: The Engineering Science of Protecting Business Value
Professor Louis Gritzko, FM Global, VP of Research |
| January 31 | Title: Have You Talked To Your Building Lately? A Few Ideas Of What Can Be Leveraged From An Instrumented Building. Professor Pablo Tarazaga, Virginia Tech |
| February 7 | Title: Micro and Mesoscale Additive Manufacturing
Professor Rahul Panat, Carnegie Mellon University |
| February 14 | Title: TBD
Professor Alexey Titovich, NSWC Carderock Divion |
| February 21 | Title: TBD
Professor Robert Carpick, University of Pennsylvania |
| February 28 | Title: TBD
Professor Fan Yuan, Duke University |
| March 7 | Title: Thread Diagnostics: Sensors, Circuits, Microfluidics and Drug Delivery
Professor Sameer Sonkusale, Tufts University |
| March 21 | Title: Mechanics of Cell-Matrix Interactions in Three-Dimensions
Professor Guruswami Ravichandran, Caltech |
| March 28 | Title: Virtual Surgery
Professor Suvranu De, RPI |
| April 4 | Title: TBD
Professor Timothy Secomb, University of Arizona |
| April 11 | Title: Bioprinting: Implementation, Process Dynamics and Process-Induced Cell Injury
Professor Yong Huang, University of Florida |
| April 18 | Title: Fast and Efficient Underwater Propulsion Inspired By Biology
Professor Alexander Smits, Princeton University |
| April 25 | Title: TBD
Professor Calvin Hong Li, Villanova University |

Contact Professor Aaron Mazzeo at aaron.mazzeo@rutgers.edu.
